SUSANNA S. SHIELS, AIA

Project Architect

Susanna S. Shiels joined PIKE-McFARLAND-HALL ASSOCIATES, INC. in October of 2000. She possessed fourteen years of architectural experience prior to joining PMH, involving a variety of building types varying in complexity and scale to include concrete and steel towers, theatres, shopping malls and residential/clubhouse design.

Susanna is a graduate of the University of North Carolina at Charlotte with a Bachelor of Arts degree in Architecture and was a classmate of Mr. McFarland.

Upon completion of her education, Susanna relocated to Myrtle Beach, South Carolina and accepted a position in a medium sized architectural firm, where Mr. Pike was an associate. She gained experience at this firm for ten years before moving on to a much smaller Myrtle Beach firm. Her association with these firms has provided the opportunity to experience diversity in architectural practices. She brings the positive experience of these diversified projects to the PMH team.

In both offices, Susanna's primary responsibilities included production and coordination of CAD documents and the coordination and orchestration of architectural and engineering services required for successful project deliveries.
